  Lovely Professional University
  Completed in 2019

- Science
  Narayana Junior College
  Completed in 2015

About Me

Innovative and dedicated professional with a passion for driving efficiency through strategic problem-solving. With a proven track record in RPA Development, Web Development and Mobile Development, I excel at devising creative solutions that deliver tangible results. My collaborative nature, coupled with a commitment to continuous learning, empowers me to navigate challenges and contribute meaningfully to dynamic teams. Eager to leverage my expertise to contribute to organization success.

Achievements

- Successfully automated 16+ resulting in a 90% reduction in processing time, enhancing overall efficiency.

- Engineered an innovative RPA solution that yielded tangible reductions in operational expenditure, demonstrating both the efficacy of automation and its direct impact on cost optimization.

- Implemented an automated validation mechanism that decreased error rates by 95%.

- Crafted and executed an intricate RPA solution encompassing multiple processes, including intricate invoice handling and voluminous data, resulting in a remarkable enhancement of process precision and velocity.

- Engaged with diverse departments and teams to create and deploy cross-functional RPA solutions, enhancing interdepartmental communication and driving efficiency throughout the entire organization

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking
